Re: KEEL(AM), Shreveport, Louisiana  
Facility Identification Number : 46983  
Townsquare Media Shreveport License, LLC  
Special Temporary Authorization

Dear Counsel:

This is in reference to the request filed November 15, 2010, on behalf of Townsquare Media Shreveport License, LLC ("TMS"). TMS requests further extension of the special temporary authority ("STA") granted on July 12, 2007, to operate Station KEEL with parameters at variance from licensed values and/or reduced power while maintaining monitor points within licensed limits.<sup>1</sup> In support of the request, TMS provides a report of its progress toward resolving the existing problems with the nighttime directional antenna system. TMS states that its engineers have obtained parts and have made extensive repairs to the site in preparation for final tuning and proof of performance.

Requests for extension of STA will be granted only where the licensee can show that one or more of the following criteria have been met:

- Restoration of licensed facilities is complete and testing is underway;
- Substantial progress has been made during the most recent STA period toward restoration of licensed operation; or
- No progress has been made during the most recent STA period for reasons clearly beyond the licensee's control, and the licensee has taken all possible steps to expeditiously resolve the problem.

Our review indicates that the licensee has made progress toward restoration of licensed operation, but additional time is required for completing the work. Thus, extension of STA is warranted.

---

<sup>1</sup> KEEL is licensed for operation on 710 kHz with 50 kilowatts daytime and 5 kilowatts nighttime, employing different directional antenna patterns daytime and nighttime (DA-2-U).

Accordingly, the request for extension of STA IS HEREBY GRANTED. Station KEEL may continue to operate with parameters at variance from licensed values and/or reduced power while maintaining monitor points within licensed limits. It will be necessary to further reduce power or cease operation if complaints of interference are received. TMS must notify the Commission when licensed operation is restored.<sup>2</sup> TMS must use whatever means are necessary to protect workers and the public from exposure to radio frequency radiation in excess of the Commission's exposure guidelines. *See* 47 CFR § 1.1310.

This authority expires on **June 23, 2011**.

Sincerely,

A handwritten signature in blue ink, appearing to read "Charles N. Miller".

Charles N. Miller, Engineer  
Audio Division
